

## CARE GUIDE FOR STAINLESS STEEL SINKS

Your Karran stainless steel sink is produced from the highest quality nickel bearing stainless steel. With the right care it will last a lifetime.

All Karran sinks have a lustrous satin bowl finish which is easy to maintain and clean. Many cleaners work well with Karran stainless steel sinks. Some of the cleaners that work best are Bar Keeper's Friend™ and Zud™. Additional cleaners that are suitable include Comet™, Flitz™, Soft Scrub™ and Mr. Clean™. Use one of these recommended cleaners to keep your Karran stainless steel sink looking like new.

### **Regular maintenance will keep your sink looking great:**

- We recommend that you rinse your sink thoroughly after each use and towel dry. This will inhibit the buildup of mineral deposits on the sink's surface that may cause your sink to lose its lustrous appearance.
- When scouring your sink, which should be done weekly, ensure that you rub in the direction of the satin finish grain lines. Do not scour across the satin finish grain lines. This will damage the lustrous satin finish of your sink. The deck of your Karran sink may, depending on model, have a polished/mirror finish. Do not clean this with any type of abrasive cleaner. Use water and a soft cloth only. Do not place pots and pans on the bowl divider. This may scratch the polished finish.
- Do not leave soaps or other cleaners in your sink to dry. Most contain chemicals that could, if left on the surface, damage it.
- Do not soak your sink with solutions of bleach. Bleach contains chemicals that may damage your sink if left on the surface for an extended period of time.
- Do not use steel wool on your sink. Steel wool can break down and leave small particles of steel on your sink's surface that may rust. If aggressive cleaning is needed, use a 3M Scotch-Brite™ pad.

The use of rubber mats is not recommended as they may cause possible pitting or surface rust. If mats are used, remove them from your sink after each use. Stainless steel, like most metallic surfaces, can scratch. These scratches will blend in to the overall satin finish of your sink over time. Do not use your sink as a cutting board or chopping block. This type of use may cause deep scratches in the finish of your sink.

Follow these simple maintenance tips to keep your sink looking its best for years.

## WARRANTY FOR STAINLESS STEEL SINKS

Plexicor (USA) Inc., (hereto known as the Company) warrants each new stainless steel sink to be free from defects in workmanship and materials when used under normal conditions and maintained properly. This warranty applies to all Karran stainless steel sinks but does not apply to damages caused by:

- Accidents, physical abuse or misuse
- Damage from excessive heat
- Breakage not due to a defect in the manufacture of the material
- Improper care and maintenance

This warranty shall be in effect from date of installation into the residential or commercial application. The warranty length varies by Series and is as follows:

- |                          |                           |
|--------------------------|---------------------------|
| Edge Series - 25 Years   | Profile Series - 25 Years |
| Select Series - Lifetime | Elite Series - Lifetime   |

This warranty shall be instead of any other warranty, either express or implied, including but not limited to, any implied warranty of merchantability or fitness for a particular purpose. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

At its option, the Company will repair or provide a replacement sink for any Karran stainless steel sink that the Company has found to contain a manufacturing defect and is within warranty period. Under this warranty the liability of the Company is limited solely to the repair or provision of a replacement of the Karran sink within the warranty period. Should the sink, at the company's option, be replaced the Company may provide, at its option, \$150 (one hundred and fifty dollars) only towards the installation of another Karran sink. Should the sink needing replacement be an Edge Series sink and be seamlessly mounted in a laminate, granite, quartz, solid surface or other countertop, the replacement sink will be a Karran top mount sink. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives the original purchaser specific legal rights and you may have other rights that vary from state to state.

Under no circumstances will the company be responsible for any expense in connection with any repairs/replacement made by anyone other than an authorized representative of the Company and Karran Sinks. All repairs must be specifically authorized by the company in writing before being undertaken.

Note: Your sink is automatically warranted. You are not required to submit warranty/purchase information to the Company
